AUDIT FINDINGS

NARRATIVE:

The on-site visit for Prison Rape Elimination Act (PREA) compliance audit of the Federal Correctional Institution, Herlong was conducted on May 30-April 2, 2015 to determine compliance with the Prison Rape Elimination Act standards finalized August 2012. The Director of the Federal Bureau of Prisons and the National PREA Coordinator were previously interviewed by PREA auditor Bill Willingham. The facility is accredited by the American Correctional Association (ACA). When the auditor arrived at the facility, an "in-briefing" meeting was held with Acting Warden, PREA Compliance Manager, Associate Wardens, ACA Auditor, several support staff and representatives from the Bureau of Prison (BOP) Program Review Division. The introductions and the audit process were discussed during the briefing.

During the on-site audit, the auditor toured the facility and conducted formal staff and inmate interviews. The auditor interviewed 11 inmates (random inmates from all of the housing units; including one limited English speaking, one inmate identified as being high risk for victimization, and one inmate from the segregation unit.) At least 12 other inmates were informally interviewed by this auditor during the tour. In addition, the auditor questioned 21 staff (11 specialized staff and 10 random Correctional Officers from each shift), about PREA training, how to report, to whom to report, filing reports, available interventions, conducting interviews, evidence collection, follow up, and monitoring retaliation. Specialized staff interviewed included the Acting Warden/ PREA compliance manager, Acting Human Resource Manager, Unit Manager, Chief Psychologist, Camp Administrator, Evidence Recovery Team Leader, Acting Health Services Manager, Investigator, Religious Services Assistant and Supervisor Inmate Systems Specialist. In this first PREA report period from March 2014 to March 2015, there were three sexual assault/harassment allegation cases of which all three were determined to be unsubstantiated.

DESCRIPTION OF FACILITY CHARACTERISTICS:

The Federal Correctional Institution/Federal Prison Camp in Herlong, California (FCI Herlong) is a medium security all-male facility with an adjacent minimum security satellite camp. It is located approximately 50 miles north of Reno, Nevada. The facility was built on approximately 600 acres transferred to the Federal Bureau of Prisons from the Sierra Army Depot, under the provisions of the Defense Base Closure and Realignment Act of 1990. Construction of the institution began in 2001 and was completed in 2003. FCI Herlong was dedicated on July 12, 2005. It was granted funding to build a new training center which was dedicated on December 19, 2014. The elevation ranges between 4,025 and 4,105 feet.

In the main facility there are three separate housing units inside the fence. Each housing unit is two stories high and is divided into four pods. The special housing unit is self-contained with a capacity of 180 inmates. The unit has both indoor and outdoor recreation capabilities. The unit also has a medical exam room, program room, and a small library. It has an adjacent minimum security male camp comprised of dormitory style housing. The camp was activated in 2006 and

is located approximately ½ mile from the main facility. The housing unit is dormitory style, with double bunking. Due to the security level of the camp, there is no perimeter fence. It is work and program oriented and many of the inmates are utilized to serve the labor needs of the larger facility. The rated capacity is 1,152 for the main institution and 137 for the camp.

The mission of the Federal Bureau of prisons is to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost efficient, and appropriately secure, and that provide work and other self-improvement opportunities to assist offenders in becoming law abiding citizens. Through Unit Management each inmate's programming needs are determined. Through the use of Inmate Skills Development System (ISDS) they assess the skills and needs of each inmate in an effort to utilize specific programs to enhance their skills and abilities which they can use to reintegrate back into their communities. Inmates are encouraged to participate in a wide variety of educational, recreational, and spiritual programs. The Education and recreation Departments offer: General Educational Development (GED), English as a Second Language, Parenting Program, Post-Secondary Education, Vocational Trades and Adult Continuing Education Special Interest Courses. Vocational training programs offered are welding, carpentry and computers. They can also participate in apprenticeship programs in partnership with the U. S. Department of Labor in dental assistant, electric, heating and air conditioning, plumbing and welding. The Recreation Department offers wellness, leisure and hobby craft programs. The Psychology Department provides a range of services including: group counseling, suicide prevention, and Employee Assistance Program. They also operate several drug abuse programs. The 500 hour Residential Drug Abuse Program (RDAP) involves inmates programming daily from nine to twelve months and residing in the same housing unit. RDAP is a certified Modified Therapeutic Community, using only the evidence-based Cognitive-Behavioral Treatment modality. The Non-Residential Drug Abuse Program is a weekly 12 to 24 week Cognitive-Behavioral Program offered at both the main facility and the camp. In addition, Drug Education classes are offered. Religious Services provides opportunities for inmates to pursue individual religious beliefs and practices. A variety of re-entry Programs are offered by a combination of staff and volunteers to provide the offenders with the necessary skills needed to obtain viable employment and to become productive citizens upon release. Partnerships have been developed with local county social services, other federal and state agencies, as well as community based organizations to deliver re-entry efforts.

The auditor concluded, through interviews and review of policy and documentation, that all staff and inmates were very knowledgeable concerning their responsibilities involving PREA. During the interviews, the inmates stated that staff was respectful and that they felt safe at the facility. Staff were able to describe in detail their specific duties and responsibilities, including being a "first responder" if an incident occurred or allegation of sexual abuse/harassment was made.
